- Project: **RS No.9 Carnaby St.** - London, UK
- Prize: Silver

- **Canadian Interiors Best of Canada Awards Competition**
- Category: Retail & Showroom
- Project: **Canada Goose** - Beijing, China
- Prize: Winner

ICSC Global Awards North America
CF Chinook Centre Dining Hall - Calgary, Alberta
Owner: ONTREA Inc., Developer: Cadillac Fairview Corp.
In collaboration with Zeidler Architecture Inc.
Prize: **Silver**

CF Chinook Centre is Calgary's largest and premier shopping centre located 3 miles from the downtown core. The space is vast and multileveled with the challenge of making it easily navigable while offering different styles of seating transforming the experience from fast food to that of dining. The newly renovated 30,000 sq. ft. Dining Hall features 835 seats and 20 dining options. The voluminous space was completely overhauled with new custom furniture, Italian porcelain tile flooring, and a "forest" of 31 metal columns to give the voluminous space a soft industrial edge.

ICSC Global Awards North America
Devonshire Mall - Windsor, Ontario
Owner: HOOP, Developer: Cushman & Wakefield
In collaboration with MMC Architects
Prize: **Silver**

Devonshire Mall's renovation features a reconfiguration and readaptation of the former Target space into a new Metro grocery store and a Shoppers Drug Mart, a relocated food court with expanded dining options, new entrances, landscaping and overall interior uplift. New clerestories, in combination with the new skylights, improved the customer experience throughout shopping centre by saturating the common areas with natural light, along with new ceiling designs and 100% LED lighting. The renovation reinforces Devonshire Mall as the premier shopping destination for the city of Windsor while introducing leading retail brands elevating the tenant mix.

ICSC Global Awards North America
Devonshire Mall - Windsor, Ontario
Owner: HOOP, Developer: Cushman & Wakefield
In collaboration with MMC Architects
Prize: **Sustainable Gold**

Devonshire's zero waste food court is defined as reducing waste to landfill, incineration and environment by 90% or more. There are no trash bins in the new Food Court. The centre made a commitment to the community to downstream accountable organic, paper, metal, plastic and garbage program in an effort to achieve Zero Waste Status. Over a six-month period from June 26-December 31, 2018, almost 121,000 pounds of compost was distributed to local farmers to be used on their fields. There are currently three 500lb composters on site contributing to the zero-waste food court. In a 15-hour cycle, they can convert 100lbs of organic waste into 15lbs of compost.

DrivenxDesign London Design Awards
RS No.9 Carnaby St. - London, UK
In collaboration with Bravado and Universal Music Group

The first flagship store for the legendary Rolling Stones, RS No.9 Carnaby St. is part retail, part gallery, part fan experience. This project, in collaboration with Bravado and Universal Music Group, is a celebration to music, fashion and art. Exclusive RS No.9 branded merchandise with curated collaborations and collections can be found on two levels. The Rolling Stones Brand was thoughtfully translated in every design detail from the exclusive RS Pantone Red feature elements, to the soundwave window sculpture that represents the opening to the classic song "Paint it Black".

**Canadian Interiors Best of Canada Awards Competition
Canada Goose - Beijing, China**

In collaboration with Canada Goose Store Development Team and Imaginex Group

The Canada Goose experiential “Northward” concept store in SKP Mall was inspired by the jagged ice and rock of the Canadian Arctic where shoppers are surrounded by organic faceted concrete paneled walls. Black niches throughout the space frame and highlight the curated product. The ceiling art installation, created by Shanghai-born Chinese American artist Juju Wang was inspired by the glacial lakes and endless frozen expanse of northern Canada. All white product display plinths appear to rise organically from the matching flooring. The monolithic environment appears to be chiseled from a single block of stone and ice. SKP (Shin Kong Place) Mall blurs the lines between a shopping destination and an art gallery, and the “Northward” concept store exemplifies this directive.

About GH+A: With over three decades of retail design experience, our reputation has been built on successful relationships with clients and consultants on both sides of the lease line. We are a curious team of 60+ passionate, creative & strategic thinkers that preposition and reinvent shopping centre development, placemaking, F&B, fashion and health+wellness. We design and transform spaces into inspiring and engaging environments with purpose and authenticity. Behind all the spaces we create a carefully considered strategy that yields outstanding results for landlords and retailers alike. With offices in Montreal (Quebec) and Detroit (Michigan), GH+A designs for an international market with a strong focus on customer experience and retail performance.

About ICSC: Founded in 1957, ICSC is the global trade association of the shopping center industry. Its more than 70,000 members in over 100 countries include shopping center owners, developers, managers, investors, retailers, brokers, academics, and public officials. For more information about ICSC visit www.icsc.org and for the latest news from ICSC and the industry go to www.thecenterofshopping.com.

About DrivenxDesign : A global community of over 95,000 members, 9,500 brands and 1,700 studios -who together innovate, accelerate and grow demand for design. DrivenxDesign celebrates the role of design in enriching the human experience. Design that solves human needs through the application of technology and human centered design methods. The London Design Awards program provides marketplace recognition across an extensive range of categories and celebrates the creativity and courage of those who are leading the way.

About Canadian Interiors : Celebrating 24 years, Canadian Interiors has sponsored an annual national interior design awards program. It is the country’s only design competition to focus on interior design projects and products without regard to size, budget or location. Welcomed are submissions from interior designers, architects, interior architects, decorators, crafts persons and students.
